# NORWAY TO ASK STATUS FAST TIME UP MOUNTAIN

## LAPPEAL TO WASHINGTON. "AUTOS" BREAK RECORD.

Informal Queries To Be Put Re- W. H. Hilliard, of Boston, Wins garding American Recognition.

Chicage, July 18.-According to "The Daily News," the independent Norwegian government is prepared to ask official recognition from the United States, and special envoys have been in this country for some time looking over the ground as private citizens prior to the assumption of diplomatic powers with which they have been invested. This was shown to-day with the return from New-York of F. H. Gade, Mayor of Lake Forest, Ili. Mayor Gade is an active orker for an international status for Norway. He has been in New-York for the last ten days in conference with J. Irgens, a special Norweglan envoy, and Christian Hauge, who, up to the time of his resignation a month ago, was the chargé d'affaires and secretary of the Norwegian-Swedish Legation at Washington, After consultations with Professor Moore, of Columbia University, and John W. Foster, an infor nent was drawn up for presentation to the State Department to serve as a "feeler" for official documents which may be expected to follow.

The communication which has been prepared and is to be presented in the name of Mr. Hague, as a private chizen, asks some pertinent questions of the State Department as follows: Will the United States government officially

receive diplomatic envoys and recognize consuls appointed by the Norwegian government?

Will the United States government be inclined to permit its consular officials in different countries to take charge of the interests of Norwegian citizens there that may require attention until each consular can be appointed and until such consuls can be appointed and sent to such countries by the Norwegian gov-

In connection with these questions the following statements are made, among others:

The recent events in Norway have in no wise created any new state or sovereignty, nor has there been any splitting up of or separation

there been any splitting up of or separation from any sovereignty.

The King's household, including all the officials therefor, has been separate and distinct in each country. Still more significant, perhaps, are the facts that the tariff systems of the two countries have been entirely different, one being practically free trade and the other protection; that there has been no tariff reciprocity between the two countries, and even that goods from one countries have been subject to full tariff. one country have been subject to full tariff

from one country have been subject to full tariff duty in entering the other.

By virtue of its separate sovereignty, Norway has, entirely by itself, independent of and uncioned by Sweden, concluded numerous commercial treaties with foreign nations.

It will further be seen that the form of government has, by the recent events, undergone be change, but remains a kingdom and a constitutional monarchy. There neither has been poor is there a question of altering the constitution of the country, except only as such refers to the union with Sweden.

### Rumor That Government's Norway Bill Will Be Rejected.

Stockholm, July 18 .- Both houses of the Riksdag were in secret session yesterday and today almost without interruption. It is understood that the Senate has concluded the pre-liminary discussion of the relations between 6weden and Norway, and that when the Chamber arrives at a decision both houses will meet and endeavor jointly to adjust their material differences. It is reported that the government bill will be rejected and that the cabinet will resign. The result of a by-election in one of the dis-

The result of a by-election in one of the districts of Stockholm for member of the Second Chamber indicates that the opinion of the Liberals is turning significant the coercion of Norway. The Liberal candidate, who announced himself as in favor of recognizing Norway as a separate State without humiliating conditions, obtained 347 votes, while another candidate, opposed to recognizing Norwegian independence without stringent conditions, polled only 124 votes.

Mount Washington Climb.

Bretton Woods, N. H., July 18.—The record of 24 minutes 27.3-5 seconds, established last year by Harry Harkness, of New-York, in making the eight mile climb over the carriage road from the ase to the summit of Mount Washington, was broken no less than four times to-day. The first contestant to-day to break last year's

The first contestant to-day to break last year's record was William H. Hilliard, of Boston, who, accompanied by Frank Townsend, and driving a 40-60-horsepower gasolene car, reached the summit in 20 minutes 58-2-5 seconds, the flew record.

Stanley T. kellogg, of Springfield, Mass., drove a 3-horsepower motor cycle up the steep grade in 20 minutes 58-1-5 seconds, only four-fifths of a seclid behind Hilliard's new record.

Burt Holland, of Newton, Mass., in a 15-horsepower steam runnbout, made the ascent in 22:17-3-5, and Oscar Hedstrom, of Springfield, on a 3-horsepower motor cycle, covered the distance in 22:42.

More favorable conditions than prevailed yesterday aided the climbers to-day. The mountain was clear more than half way to the summit, and what clouds settled about the summit were not heavy. The only thing to impede the cars in the ascent was a stiff head wind. The summary.

The only thing to impede the cars in the ascent was a stiff head wind. The summary:

FETE NIGHT AT LARCHMON

CLUB IN GALA ATTIRE.

S. L. Husted Wins Gig Race for Hen and Chickens Colors.

Larchmont was en fete yesterday. It was ladies' day at the clubhouse, and the lawns in front of the house along the water's edge were crowded with the fair visitors.

For entertainment a programme of water sports and gig and launch races had been arranged, and these events were most interesting. The launches made good time over the course and the rowing races were hotly contested.

S. L. Husted's four-oared gig won the Hen and Chickens colors. Howard Gould's pairoared gig won the Dauntless colors and George Ide's dingy won the Execution colors. In this last race there were sixteen starters. The water sports, as usual, furnished lots of

fun. Obstacle races tilting contests and exhibitions amused all and made every one forget the heat. In the evening there was a ball at the club-house, and for this the grounds were beautifully illuminated. Thousands of fairy lamps were ar-ranged among the trees, Japanese and Chinese ixuterns were hung over the walks and fountains played on the sea wall, on which col-ored lights were thrown.

It was an ideal night for such an event, and it was the most successful in the history of the club. The results:
